

Watch Geoff Live: Adding a City Directory

by Geoff Rasmussen

Goal

Emma Jane BROWN (or Imogene PUEHLER or Imogene PUHLER, or Imogene PUHLER or Imogene Paris PUHLER), who was born in the 1860s and widowed in 1906, was alive as of the 1910 U.S. census enumeration which was conducted on April 18, 1910 in Milwaukee, Wisconsin. This was the latest record in which I have located her. My goal is to learn when and where she died.

Because I have not located her in state or federal census records after 1910, and because state-wide death indices are only available for 1820-1907 and 1959-1997, and because I knew she was living Milwaukee in 1910, I am next turning to Milwaukee city directories. These will hopefully give me a year-by-year accounting of where she is living (if she stayed in Milwaukee), when she left, remarried or when she died. If I can determine approximately when she died, it will be easier to request a death certificate, if in fact she died in Wisconsin in the unindexed years.

Summary of Steps

Following the guidelines in [Legacy 9 Unlocked: Techniques, Tips and Step-by-Steps for Using Legacy Family Tree to Record Your Genealogy](#), below is the summary of steps to add a city directory to Legacy.

1. Create the To Do item in Legacy Family Tree and perform the research.
2. Set up the Source Clipboard.
3. Analyze and add the new data, sourcing as you go, beginning with adding the *Directory* event.
4. Add the digital image to the *Directory* event.
5. Close/complete the To Do item.
6. Plan for future research.
7. File the paper document, if applicable.
