Audience Question:

Q: There is a drop down that says vertical, What else is in the drop down?

A: There you go! :)

Audience Question:

Q: Is there a Handout for this Chart Session? Thank you.

A: Not today. The MyHeritage series webinars typically don't have handouts.

Audience Question:

Q: OMG!!

A: :)

Audience Question:

Q: This is a great webinar! So much information.

A: Yes, fun to see the options. And these are all available right from MyHeritage!

Audience Question:

Q: What is the difference between My Heritage and Legacy?

A: MyHeritage is a large database site that offers databases, dna, online trees etc. Legacy offers a desktop family tree software and an online education center (Legacy Family Tree Webinars).

Audience Question:

Q: Will sometime in near future will My Heritage and Legacy software have equal charting capabilities and features?

A: They are two separate products by two separate companies so probably not anytime soon.

Audience Question:

A: MyHeritage owns Legacy but they are run separately. That is pretty typical for parent companies and subsidiaries of any sort.

Audience Question:

A: :)

Audience Question:
