How DNA Testing Can Reveal your Ethnic Roots

Audience Question:

Q: Thank you both Marian and Yoav for your help with this important topic.

A: :)

Audience Question:

Q: pcr=polymerase chain reaction. it is how DNA is replicated to high enough amounts to be assayed

A: Another science person! :)

Audience Question:

Q: Heard of PCR by watching Forensic Files.

A: :)

Audience Question:

Q: MyHeritage is, in my opinion, the best DNA company.

A: :)

Audience Question:

Q: Is there a pdf of these slides?

A: No, we typically don't share slide but the replay will be available for free - always.

Audience Question:

Q: I would imagine that the United States "melting pot" would also not be a good testing area.

A: I think that must be true!

Audience Question:

Q: He makes the complex science seem so easy and reasonable!

A: Yes, that's was good!

Audience Question:

Q: Except for Native Americans.

A: Of course.
