Clooz with Richard Thomas

Audience Question:
Q: Is the 1851 UK Census form in Clooz or did he build it?
A: It is built-in to Clooz.

Audience Question:
Q: I think the templates are one of the best features of Clooz because they have all those fields to help you pull out all the information -- things you might miss, otherwise.
A: Good thoughts.

Audience Question:
Q: FamilySearch also has a copy/pastable source citation.
A: Correct.

Audience Question:
Q: Sorta like Geoff live!
A: Yep. That's what I was thinking. :)

Audience Question:
Q: This seems like a ton of work!   With only one computer screen it appears you need to go back and forth!
A: Go to 2 monitors - your life will never be the same! ;)

Audience Question:
Q: Oh, yes, 2 monitors make genealogy SO much easier!
A: I'd NEVER go back to just one now.

Audience Question:
Q: I recently got a 2nd monitor.... couldn't do genealogy without it !!!
A: I'm happy for you!

Audience Question:
Q: I see monitors at the thrift store all the time and they have been tested to work. Just plug and play?
A: I think it depends on how new your computer is. It is very simple today. Years ago it took some effort. You just need to ensure that you have a dual monitor card in the back of your computer.

Audience Question:
Q: Some folks can neither afford a 2nd monitor nor have available space.
A: Right. I sometimes wish I had a 3rd but my desk is only built for two.

Audience Question:
Q: What about addng the oddupation, where parents born, etc?
A: Those probably weren't asked on that 1851 UK census. The fields that are given to fill in are those that are part of the actual census.

Audience Question:

Q: i use a laptop... will that work
A: Yes, a laptop can be connected to be used as a second monitor.

Audience Question:
Q: You can use your iPad as a second monitor too.
A: Cool, I didn't know that.

Audience Question:
Q: helpful ways of using two monitors might be a good after webinar session.
A: Good idea for sometime.

Audience Question:
Q: Is this any better than GenSmarts.
A: The two are completely different. GenSmarts (http://tinyurl.com/lj4nfk8) gives you suggestions on where to look as opposed to being a research manager.

Audience Question:
Q: This document export into Legacy is why I wanted to see this webinar.
A: Great, I'm glad he showed it today.

Audience Question:
Q: Is there a Clooz tutuorial video?   I'll never remember half of ths.....
A: Yes, right here: http://familytreewebinars.com/download.php?webinar_id=417

Audience Question:
Q: How did he refresh Legacy?
A: He clicked on the Pedigree View, then went back to the Family View.

Audience Question:
Q: There is also a CLOOZ channel on YouTube with training videos
A: Cool, thanks for letting us know.

Audience Question:
Q: My computer locked up.   So glad these are recorded!
A: So glad I pressed the Record button.

Geoff Rasmussen (to All - Entire Audience): 3:13 PM: Clooz Software: http://tinyurl.com/jhx238q
Audience Question:
Q: Can you import all your master sources from Legacy into Clooz? So you wouldn't have to recreate the sources in Clooz?
A: Yes.
