New Developments of MyHeritage DNA by Gal Zrihen

Marian Pierre-Louis (to All - Entire Audience): 2:19 PM: MyHeritage cM Explainer - <https://www.myheritage.com/cm>

Audience Question:

Q: Can we see the diagram from within matches ?

A: Yes

Marian Pierre-Louis (to All - Entire Audience): 2:32 PM: MyHeritage cM Explainer - <https://www.myheritage.com/cm>

Marian Pierre-Louis (to All - Entire Audience): 2:34 PM: To see the diagram - Click on a MyHeritage DNA match, then when viewing a match, see where it says possible relationships. At the bottom of that you will see a purple link to "Show more relationships plus diagram"

Audience Question:

Q: Does Explainer work with 23andMe data?

A: You can manually enter cM information from any site including 23andMe. It is done automatically for your MyHeritage matches.

Audience Question:

Q: I do not have show more, last line says the relationship and probabilities were calculated on the amount of dna they share and xx age.

A: Cool

Marian Pierre-Louis (to All - Entire Audience): 2:46 PM: IBD = Identity by Descent

Audience Question:

Q: How long after generating an AutoCluster should I receive the email?

A: When I have done it the length has been about 5 minutes.

Marian Pierre-Louis (to All - Entire Audience): 3:08 PM:

<https://blog.myheritage.com/2023/03/introducing-cm-explainer-to-predict-relationships-between-dna-matches-with-greater-accuracy/>

Audience Question:

Q: Is there a webinar on tagging/labeling matches? Does each match have to be tagged individually or can you tag a group of matches?

A: <https://familytreewebinars.com/webinar/dna-labels/>

Audience Question:

Q: 23andMe allows one to use a match as the person who is compared with a number of others who are your matches in common.

A: thanks
